Gateway to Nevada’s Finest Mentors and Premier Research Projects
Our Purpose

The Nevada STEM Mentor Network is a one-stop online resource that provides access to Nevada’s finest mentors and premier research projects in the STEM fields. We are committed to helping connect students and faculty to research opportunities statewide.

Mentors

- Search our extensive database of Nevada student and peer faculty STEM mentors.
- Apply to be listed as a mentor in the searchable mentor database.
- Enhance your mentoring experience by accessing mentor/mentee resources.

Opportunities

Browse past and present Nevada STEM research opportunities and/or post an opportunity of your own.

- Current grant-funded research looking for leveraging partners
- Solicitations/announcements for new research projects
- Research scholarship and fellowship opportunities
- Seed funding for statewide research projects & collaborations
- STEM graduate assistant/faculty positions for hire
- Other STEM-related education/research related opportunities upon approval

Trailblazers

- Share a trail-blazing story of your own!
- Recognize Nevada’s outstanding STEM research accomplishments and the people who make it happen.
